Article 3. State Compliance Procedures: Local Education Agencies

Other Than Charter Schools

§ 19817.1. Regular and Special Day Classes.

For fiscal year 2004-05 and each fiscal year thereafter, perform the following audit steps:

(a) Determine whether the Second Principal and Annual reports of attendance submitted to the California Department of Education reconcile to the supporting documents by verifying the local education agency's Average Daily Attendance calculations for each reporting line item, including

the informational line items. Trace the Average Daily Attendance numbers from the Second Principal and Annual reports of attendance to the local education agency's summaries.

(b) Verify that the monthly site summaries used for summarizing attendance provide accurate information, by selecting a representative sample of schools and performing the following procedures (include special day classes in this sample; other special programs are identified separately in subsequent sections of this audit guide):

(1) Reconcile the monthly totals (days of apportionment attendance) on the school's attendance summary to the summary maintained by the local education agency for the Second Principal and the Annual attendance reports.

(2) Select at least one test month in the Second Principal or Annual attendance reporting period. Verify the mathematical accuracy of the monthly report and trace the totals to the school's attendance summary.

(3) Select a representative sample of classes (teachers) and trace the monthly totals from the monthly report to the data origination documentation. Verify the mathematical accuracy of the attendance registers, scantron summaries, or other data arrays.

(c) Select a sample of absences and compare to documentation supporting Average Daily Attendance reported to the California Department of Education to verify that absences were not included in Average Daily Attendance. The documentation maintained by the local education agency with regard to its absences may be in the form of notes, logs, or other records, depending on the board-adopted policy concerning verification of absences.

(d) If any inappropriately reported units of Average Daily Attendance are identified through the foregoing audit procedures, recalculate, consistent with the provisions of Education Code Section 46303, the correct number of units of Average Daily Attendance. Include a statement in the Findings and Recommendations section of the audit report of the number of units of Average

Daily Attendance that were inappropriately reported for apportionment and an estimate of their dollar value.

(e) For each teacher selected pursuant to subparagraph (b)(3) of this section, test to determine whether the teacher possessed a valid certification document. If any teacher did not possess a valid certification document, calculate the penalty or penalties pursuant to the provisions of Education Code Section 45037 and include the actual calculation in an audit finding in the Findings and Recommendations section.

(f)(1) For each teacher selected pursuant to subparagraph (b)(3) of this section, test to determine whether the teacher was assigned to teach in a position

(A) consistent with the authorization of his or her certification document, or

(B) otherwise authorized by law pursuant to

1. a governing board resolution in conformance with the provisions of any of subdivision (b) of Education Code Section 44256, Section 44258.2, Section 44258.3, or Section 44263, or

2. approval of a committee on assignments pursuant to the provisions of subdivision (c) or (d) of Section 44258.7.

(2) If any teacher selected pursuant to subparagraph (b)(3) of this section was assigned to teach a class in which more than 20 percent of the pupils were English learners, determine whether the teacher was authorized to instruct limited-English-proficient pupils pursuant to the provisions of Education Code Section 44253.3, 44253.4, or 44253.10.

(3) If any teacher was assigned to teach in a position for which he or she was not authorized, include a finding in the Findings and Recommendations section of the audit report.

§ 19818. Kindergarten Continuance.

- (a) Select a representative sample of kindergarten classes. Perform the following procedures.
- (b) Obtain a list of kindergarten pupils enrolled in the selected kindergarten classes for the year audited and the year prior. Compare the enrollment lists and identify those kindergarten pupils, if any, who are on both lists.
- (c) Review the record of each pupil identified on both lists to determine whether the pupil continued in kindergarten after completing one school year of kindergarten. For a pupil who begins kindergarten mid-year, one school year of kindergarten is completed on the last day prior to the anniversary of the pupil's first day of kindergarten.
- (d) Verify that the local education agency has a signed parental agreement to continue form, approved in form and content by the California Department of Education, for each such pupil.
- (e) If any inappropriately reported units of Average Daily Attendance are identified through the foregoing audit procedures, recalculate, consistent with the provisions of Education Code Section 46303, the correct number of units of Average Daily Attendance. Include a statement in the Findings and Recommendations section of the audit report of the number of units of Average Daily Attendance that were inappropriately reported for apportionment and an estimate of their dollar value.

NOTE: Authority cited: Section 14502.1, Education Code. Reference: Sections 14502.1, 14503 and 41020, Education Code.

§ 19819. Independent Study.

If the local education agency reported Average Daily Attendance generated through independent study, perform the following procedures

- (a) At the agency level:
 - (1) Reconcile the local education agency's independent study attendance records to Average Daily Attendance generated through full-time independent study reported to the California

Department of Education.

(2) From the independent study attendance records, select a representative sample of pupils for whom Average Daily Attendance generated through independent study was claimed, including pupils on intermittent or “short term” independent study if the local education agency offered that option, and confirm that every pupil in the sample is identified in the written records of the district or county board by grade level, by program placement, and by the school in which he or she is enrolled.

(3) If, pursuant to the foregoing audit procedure, any pupils are found that were not identified in the written records of the district or county board by any one or more of grade level, program placement, and the school in which he or she was enrolled, recalculate, consistent with the provisions of Education Code Section 46303, the correct number of units of Average Daily Attendance. Include a statement in the Findings and Recommendations section of the audit report of the number of pupils and the number of units of Average Daily Attendance that were inappropriately reported for apportionment and an estimate of their dollar value.

(4) Verify the local education agency’s calculation, made pursuant to the provisions of subdivision (a) of Education Code Section 51745.6, of ineligible Average Daily Attendance, if any, generated through full-time independent study by pupils 18 years of age or less.

(5) Interview administrative personnel and school counselors of the local education agency to determine if the local education agency had policies and procedures to ensure that any pupil terminating an independent study agreement was permitted to immediately recommence classroom study.

(6) Interview local education agency administrative personnel as well as a sample of independent study teachers and review written agreements to determine whether it was the local education agency’s policy or practice to provide independent study pupils or their

parents/guardians with monetary funding or any other things of value such as equipment or paid private instruction. If so, determine whether classroom pupils or their parents/guardians had the same access to funding or things of value. Read program materials provided to all parents/guardians to determine that opportunities were equal and that pupils engaged in independent study were neither offered nor given incentives or special benefits.

(b) Select a sample of schools that is representative of the local education agency and sufficient in size to allow the auditor to draw a reasonable conclusion with respect to the local education agency's compliance with independent study requirements. Verify that the monthly site summaries used for summarizing attendance provide accurate information by performing the following procedures:

(1) At each school, examine the attendance accounting records to verify that the attendance of pupils or adult education students or both while engaged in independent study was maintained on separate registers or the local education agency had another mechanism in place to track Average Daily Attendance generated through independent study separately from other Average Daily Attendance.

(2) Determine the total number of days of attendance reported for each sampled school that resulted from attendance by pupils or adult education students or both while engaged in independent study. Reconcile the monthly totals (days of apportionment attendance) on the site's attendance summary to the summary maintained by the local education agency for the Second Principal and the Annual attendance reports.

(3) Select a test month in the Second Principal or Annual attendance reporting period. Verify the mathematical accuracy of the monthly report and trace totals to the school's attendance summary.

(4) Verify that a certificated employee of the local education agency coordinated, evaluated,

and provided general supervision, as that term is defined in Section 11700(b), of each pupil's or adult education student's independent study, as required by the provisions of subdivision (a) of Education Code Section 51747.5.

(5) Select a representative sample of teachers. Verify the mathematical accuracy of the teachers' attendance records of pupil or adult education student attendance. Trace the monthly totals from the monthly report to the attendance records.

(6) If 100 percent apportionment attendance was recorded for all independent study pupils or adult education students or both, ensure that the teacher did not accrue more days of apportionment credit for any assignment than there were school days in that assignment ("banking"); or accrue days of attendance for work submitted subsequent to the specified due date for the assignment ("make-up").

(7) For programs in which hourly attendance accounting is not required pursuant to Section 406, verify that attendance credit was recorded in whole days based on the supervising teacher's personal review, evaluation, and assignment of time value to the pupil's or adult education student's work product, or the supervising teacher's review of the evaluation and assignment of time value made by another certificated teacher.

(c) From the attendance records, select a representative sample of pupils/adult education students for whom Average Daily Attendance generated through independent study was claimed, including pupils on intermittent ("short term") independent study if the local education agency offered that option, and perform the following procedures:

(1) Verify that no pupil was enrolled in the local education agency pursuant to subdivision (b) of Education Code Section 48204 while engaged in full-time independent study.

(2) Determine each selected pupil's or adult education student's county of residence at the time of commencing independent study and verify that it is the county in which the apportionment

claim is reported or a contiguous county within California.

(3) Determine whether mailing addresses or other evidence of residency changed during the time the pupils/adult education students were in independent study and, if so, whether each pupil or adult education student remained resident of the same or a contiguous county within California.

(4) Verify that a total of not more than one day of attendance generated through independent study was recorded for each pupil, including pupils enrolled in more than one program, for any calendar day on which school was in session.

(5) Verify that a written agreement exists for each pupil/adult education student selected.

(6) Verify that every pupil whose independent study attendance was claimed for apportionment was participating under an agreement for a minimum of five consecutive school days.

(7) Verify that every written agreement contained all the required elements:

(A) The manner, time, frequency, and place for submitting a pupil's or adult education student's assignments and for reporting his or her progress.

(B) The objectives and methods of study (pupil/adult education student activities selected by the supervising teacher as the means to reach the educational objectives set forth in the written agreement) for the pupil's or adult education student's work.

(C) The methods utilized to evaluate that work (any specified procedure through which a certificated teacher personally assesses the extent to which achievement of the pupils/adult education students meets the objectives set forth in the written assignment).

(D) The specific resources, including materials and personnel, to be made available to the pupils/adult education students (resources reasonably necessary to the achievement of the objectives in the written agreement, not to exclude resources normally available to all pupils/adult education students on the same terms as the terms on which they are normally available to all

pupils/adult education students).

(E) A statement of the policies adopted pursuant to subdivisions (a) and (b) of Education Code Section 51747 regarding the maximum length of time allowed between the assignment and the completion of a pupil's or adult education student's assigned work, and the number of assignments a pupil or adult education student may miss before there must be an evaluation of whether it is in the pupil's or adult education student's best interests to continue in independent study.

(F) The duration of the independent study agreement, including the beginning and ending dates for the pupil's or adult education student's participation in independent study under the agreement, with no agreement being for a period longer than one semester, or one-half year for a school on a year-round calendar.

(G) A statement of the number of course credits or, for the elementary grades, other measures of academic accomplishment appropriate to the agreement, to be earned by the pupil/adult education student upon completion.

(H) A statement in each independent study agreement that independent study is an optional educational alternative in which no pupil may be required to participate. In the case of a pupil who is referred or assigned to any school, class, or program pursuant to Section 48915 or 48917, the agreement also shall include the statement that instruction may be provided to the pupil through independent study only if the pupil is offered the alternative of classroom instruction.

(I) Signatures, affixed prior to the commencement of independent study, by

1. the pupil or adult education student;
2. the pupil's parent, legal guardian, or caregiver as that term is used in Family Code Section 6550 and following, if the pupil is less than 18 years of age;
3. the certificated employee who has been designated as having responsibility for the general

supervision of independent study; and

4. all other persons, if any, who had direct responsibility for providing assistance to the pupil or adult education student.

(8) Verify that no days of attendance were reported for dates prior to the signing of the agreement by all parties.

(9) Trace each pupil's or adult education student's attendance from the attendance records to the teacher's register, record of the pupil's or adult education student's work completed, and the corresponding work assignment record. Verify that evaluated pupil/adult education student work samples, bearing signed or initialed and dated notations by the supervising teacher indicating that he or she personally evaluated the work, or that he or she personally reviewed the evaluations made by another certificated teacher, have been retained in the file.

(10) Verify that the pupil/adult education student work product samples are related to the assignment pursuant to which the work was undertaken and reflect the curriculum adopted by the local governing board and not an alternative curriculum.

(11) Review records and other relevant documentation to verify that each pupil's choice to commence or to continue in independent study was entirely voluntary and uncoerced.

(d) If any inappropriately reported units of Average Daily Attendance are identified through the foregoing audit procedures, recalculate, consistent with the provisions of Education Code Section 46303, the correct number of units of Average Daily Attendance. Include a statement in the Findings and Recommendations section of the audit report of the number of units of Average Daily Attendance that were inappropriately reported for apportionment and an estimate of their dollar value.

§ 19820. Continuation Education.

Verify that the monthly site attendance summaries provide accurate information by performing the following procedures:

(a) Reconcile the monthly totals (days of apportionment attendance) on the site's attendance summary to the summary maintained by the district for the Second Principal and the Annual attendance reports.

(b) Select a test month in the Second Principal attendance reporting period. Verify the mathematical accuracy of the monthly report and trace the totals to the site's attendance summary.

(c) Select a representative sample of classes (teachers). Trace the monthly totals from the monthly report to the data origination documentation. Verify the mathematical accuracy of the attendance registers, scantron summaries, or other data arrays.

(d) Select a representative sample of pupils and perform the following procedures:

(1) Trace each pupil's attendance in the weekly attendance records to the teacher's attendance register or other approved record.

(2) Verify that hourly attendance accounting was used.

(3) Verify that attendance was not credited for more than the scheduled class time.

(e) Review weekly attendance records to verify that the district did not claim more than 15 hours per week, or a proportionally reduced number of hours per week when there were fewer than five school days.

(f) Select a representative sample of continuation pupils enrolled in work experience education.

(1) Review the weekly attendance reports and attendance registers to verify that each pupil actually attended, as set forth in Education Code Section 48400, four 60-minute hours in each week in which he/she generated additional hours of work experience apportionment attendance

credit.

(2) Verify that the pupils received at least one instructional period per week of classroom work experience instruction or counseling as required by Education Code Section 51760.3(b).

(3) Verify that not more than 10 percent of each continuation high school's Average Daily Attendance at Second Principal (exclusive of Average Daily Attendance for a pupil who was pregnant or was a parent and the primary caregiver for one or more of his or her children) was generated through independent study as provided in Education Code Section 51745(b).

(g) If any inappropriately reported units of Average Daily Attendance are identified through the foregoing audit procedures, recalculate, consistent with the provisions of Education Code Section 46303, the correct number of units of Average Daily Attendance. Include a statement in the Findings and Recommendations section of the audit report of the number of units of Average Daily Attendance that were inappropriately reported for apportionment and an estimate of their dollar value.

NOTE: Authority cited: Section 14502.1, Education Code. Reference: Sections 14502.1, 14503 and 41020, Education Code.

§ 19821. Adult Education.

Verify that the monthly site attendance summaries provide accurate information by performing the following procedures:

(a) Reconcile the monthly totals (days of apportionment attendance) on the site's attendance summary to the summary maintained by the district for the Annual attendance reports.

(b) Select a test month in the Annual attendance reporting period. Verify the mathematical accuracy of the monthly report and trace the totals to the site's attendance summary.

(c) Select a representative sample of classes (teachers) for both exclusively adult education students and concurrently enrolled K-12 pupils (if any). Trace the monthly totals from the

monthly report to the data origination documentation. Verify the mathematical accuracy of the attendance registers, scantron summaries, or other data arrays.

(d) Verify that hourly attendance accounting was used.

(e) Verify that attendance was not credited for more than the scheduled class time.

(f) Verify that the district used individual teacher-certified records of the minutes of each pupil's or student's actual attendance for classes (sometimes termed ad hoc or laboratory class settings) that provided more total hours of class time than the minimum required to be attended for pupils or students to receive full credit for the class.

(g) Select a representative sample of K-12 pupils concurrently enrolled in adult education, if any. For each pupil selected, determine, from the adult school files, the K-12 program/school site in which the pupil was enrolled. Review the pupil's K-12 program/class schedule and/or transcript located at the K-12 program/school site and verify that the pupil was concurrently enrolled in adult education courses that supplemented and enriched, and did not supplant, the regular course offerings required to complete the curriculum for the K-12 program in which the pupil was enrolled.

(h) Review each concurrently enrolled pupil's file to ensure there is documentation of a counseling session—a communication whether by phone or in person which involved the pupil, a certificated representative of the high school, and the pupil's parent, guardian, or caretaker—that met the requirements of Education Code Section 52500.1(b).

(i) Review the district's records to ensure that it submitted to the California Department of Education for approval, in advance, a list of all courses provided.

(j) If any inappropriately reported units of Average Daily Attendance are identified through the foregoing audit procedures, recalculate, consistent with the provisions of Education Code Section 46303, the correct number of units of Average Daily Attendance. Include a statement in

the Findings and Recommendations section of the audit report of the number of units of Average Daily Attendance that were inappropriately reported for apportionment and an estimate of their dollar value.

NOTE: Authority cited: Section 14502.1, Education Code. Reference: Sections 14502.1, 14503 and 41020, Education Code.

§ 19822. Regional Occupational Centers and Programs.

Verify that the monthly site attendance summaries provide accurate information by performing the following procedures:

(a) Reconcile the monthly totals (days of apportionment attendance) on the site's attendance summary to the summary maintained by the local education agency for the Annual attendance reports.

(b) Select a test month in the Annual attendance reporting period. Verify the mathematical accuracy of the monthly report and trace the totals to the site's attendance summary.

(c) Select a representative sample of classes (teachers), and trace the monthly totals from the monthly report to the data origination documentation. Verify the mathematical accuracy of the attendance registers, scantron summaries, or other data arrays.

(d) Verify that hourly attendance accounting was used.

(e) Verify that attendance was not credited for more than the scheduled class time.

(f) Verify that the local education agency used individual teacher-certified records of the minutes of each pupil's or student's actual attendance for classes (sometimes termed laboratory class, community classroom, workplace learning, or cooperative education setting) that were not conducted in a fashion that required all pupils/students to be present at a set time or in which more hours of class time were available than the minimum number of hours pupils/students had to attend to receive full credit.

(g) If any inappropriately reported units of Average Daily Attendance are identified through the foregoing audit procedures, recalculate, consistent with the provisions of Education Code Section 46303, the correct number of units of Average Daily Attendance. Include a statement in the Findings and Recommendations section of the audit report of the number of units of Average Daily Attendance that were inappropriately reported for apportionment and an estimate of their dollar value.

§ 19824. Instructional Time.

(a) School districts: Perform the following procedures:

(1) Select a sample of schools that is representative of the district and sufficient in size to allow the auditor to draw a reasonable conclusion with respect to the district's compliance with instructional time requirements. Review the school attendance calendar and bell (class) schedules of the sampled schools. Ascertain whether any individual days are shorter than the usual length, by grade level, in that school. Compare the instructional minutes from each school site's bell (class) schedule to total instructional minutes computed by the business office.

(2) Determine, by grade level, the total number of days in each sampled school's attendance calendar that were of at least the minimum length required, pursuant to Education Code sections 46112, 46113, 46114, 46115, 46117, and 46119, for elementary schools, or sections 46141, and 46142, for junior high schools and high schools, and compare the totals to the standards set forth in Education Code section 41420 or 37670, as applicable.

(3) If all sampled regular day schools have fewer than the applicable minimum number of days, determine whether the same is true for all the regular day schools of the district.

(4) If all regular day schools have fewer than the applicable minimum number of days, the

district is subject to the penalty provided in subdivision (a) of Education Code Section 41420.

Include a statement of that fact and the amount of the penalty in the Findings and

Recommendations section of the audit report.

If the district is not subject to the penalty provided in subdivision (a) of Education Code Section 41420 but is subject to one or more penalties as provided in subdivision (b) of Education Code Section 41420, prepare a separate schedule for each school that was not in compliance showing the number of additional days the school would have had to maintain operations to meet the 175 day requirement, or the 163 day requirement if the school was operated on a multitrack year-round schedule, and calculate the penalty or penalties. Include both the schedule(s) and the amount(s) of the calculated penalty or penalties in a finding in the Findings and Recommendations section of the audit report.

(5) Compare the amount of time offered for each grade level in each sampled school during the year being audited to the required amount of instructional time as set forth in Education Code Section 46201, and to the amount offered by the district during the 1982-83 year.

(6) Determine whether the district offered optional classes to satisfy incentive funding requirements. If enrollment in optional classes is low, review the district's documentation of class offerings to ensure that the district has acted effectively to comply with the law. Practices that are not consistent with effectively offering additional instructional time may include, but are not limited to, offering only a small number of courses that in addition are appropriate only for limited numbers of pupils, and courses scheduled such that pupils may take them only by giving up their lunch period or by attending school outside the schedule of district-provided bus service.

(7) Prepare the "Schedule of Instructional Time" that must be presented in the Supplementary Information section of the audit report, showing by grade level the number(s) of instructional minutes offered by the district in the 1982-83 year; the 1986-87 instructional time requirements

specified in Education Code Section 46201; the instructional minutes offered during the year audited showing the school with the lowest number of minutes offered at each grade level; the number of instructional days offered during the year audited on the traditional calendar and on any multitrack calendars; and whether the district complied with the instructional minutes and days provisions. State in a note to the schedule whether the district received incentive funding for increasing instructional time pursuant to the Longer Instructional Day incentives.

(8) If any schools were not in compliance with the instructional minutes or days provisions, or both, prepare a separate schedule for each school showing only those grade levels that were not in compliance and calculate the penalty or penalties pursuant to Education Code Section 46200(c), 46201(d), or 46202(b). Include both the schedule(s) and the calculated penalty or penalties in a finding in the Findings and Recommendations section of the audit report.

(b) County offices of education: If the county office of education received Longer Instructional Day or Longer Year incentive funding, or both, for the fiscal year audited for special day classes, perform the following procedures:

(1) Review the school attendance calendar and bell (class) schedules. Determine the amount of instructional time offered by each school.

(2) Determine whether the county office of education complied with the instructional time incentive funding requirements by comparing the amount of time offered for each grade level during the year being audited to the required amount of instructional time as set forth in Education Code Section 46201.5.

(3) Prepare the “Schedule of Instructional Time” that must be presented in the Supplementary Information section of the audit report showing by grade level the 1986-87 instructional time requirements specified in Education Code Section 46201.5; the instructional minutes offered during the year audited showing the school with the lowest number of minutes; the number of

instructional days offered during the year audited on the traditional calendar and on any multitrack calendars; whether the county office of education complied with the instructional minutes requirements; and, if the county office of education received an apportionment pursuant to Education Code Section 46200.5(a), whether the county office of education complied with the instructional days provisions. State in a note to the schedule whether the county office of education received incentive funding for increasing instructional time pursuant to the Longer Instructional Day incentives and whether it received an apportionment pursuant to Education Code Section 46200.5(a).

(4) If any schools were not in compliance with the instructional minutes or days provisions, or both, prepare a separate schedule for each such school showing only those grade levels that were not in compliance and calculate the penalty or penalties set forth in Education Code Section 46200.5(c) or 46201.5(e). Include both the schedule(s) and the calculated penalty or penalties in a finding in the Findings and Recommendations section of the audit report.

NOTE: Authority cited: Section 14502.1, Education Code. Reference: Sections 14502.1, 14503 and 41020, Education Code.

§ 19825. Community Day Schools.

(a) Verify that the minimum school day included at least 360 minutes of community day school classroom instruction by reviewing the bell schedule(s) of the school district's or county office of education's community day school(s), and that the school's practice was to schedule all pupils, other than pupils with exceptional needs whose Individualized Education Programs specified otherwise, to attend for at least the minimum day.

(b) Select a representative sample of pupils and verify that they were scheduled to attend the community day school for at least 360 minutes each day by reviewing their class assignments.

(c) Verify that pupils were provided classroom instruction by a certificated employee of the

school district or county office of education for at least the minimum school day, by reviewing teacher room assignments and employment records.

(d) If any inappropriately reported units of Average Daily Attendance are identified through the foregoing audit procedures, recalculate, consistent with the provisions of Education Code Section 46303, the correct number of units of Average Daily Attendance. Include a statement in the Findings and Recommendations section of the audit report of the number of units of Average Daily Attendance that were inappropriately reported for apportionment and an estimate of their dollar value.

(e) Select a representative sample of pupils who were enrolled in the district's or county office's community day school(s) and perform the following procedures:

(1) Trace the credit reported for each sampled pupil's attendance in the fifth and sixth hours of attendance back to the record prepared by the classroom teacher.

(2) Verify that hourly attendance accounting was used.

(3) Verify that pupils who attended fewer than five hours in a school day were not reported for attendance credit for the additional funding, that attendance of five hours was reported for one-half day of attendance credit for the additional funding, and that attendance of six hours or more was reported for one whole day of attendance credit for the additional funding.

(f) If any inappropriately reported units of Average Daily Attendance are identified through the immediately foregoing procedure, prepare a schedule displaying the hours of attendance credit inappropriately reported and recalculate, consistent with the provisions of Education Code Section 46303, the correct number of units of Average Daily Attendance. Include a statement in the Findings and Recommendations section of the audit report of the number of units of Average Daily Attendance that were inappropriately reported for apportionment and an estimate of their dollar value.

(g) Select a representative sample of pupils who were enrolled in the district's or county office's community day school(s) and perform the following procedures:

(1) Trace the credit reported for each sampled pupil's attendance in the seventh and eighth hours back to the data origination record.

(2) Verify that hourly attendance accounting was used.

(3) Verify that no pupils who had not completed the full six-hour instructional school day were reported for attendance credit for the additional funding.

(4) Verify that the pupils' attendance during the seventh and eighth hours was supervised by an employee of the district or the county office of education.

(h) If any inappropriately reported hours of attendance are identified through the immediately foregoing procedure, prepare a schedule displaying the hours of attendance inappropriately reported and an estimate of their dollar value, and include it in the Findings and Recommendations section of the audit report.

NOTE: Authority cited: Section 14502.1, Education Code. Reference: Sections 14502.1, 14503 and 41020, Education Code.

§ 19827. Morgan-Hart Class Size Reduction Program.

(a) Determine whether the school district received Morgan-Hart Class Size Reduction Program funding pursuant to the provisions of Chapter 6.8 of Part 28 of the Education Code (commencing with Section 52080).

(b) Review the district's report of enrollment for the Morgan-Hart Class Size Reduction Program and trace the data, after determining that it is mathematically correct, to supporting summaries.

(c) Select a representative sample of schools to test, and perform the following procedures:

(1) Verify the mathematical accuracy of the calculation of Active Monthly Enrollment as

defined in Section 15141(b)(1) and Section 15140(d) for each class.

(2) Trace site summaries to contemporaneous documentation.

(3) Select a representative sample of classes to verify that each class had not more than 22 pupils enrolled during the school year.

(4) Verify that the school-wide Student to Teacher Ratio as set forth in Section 15141(b)(2) for all participating classes is not more than 20 pupils per certificated teacher.

(5) Review the titles of the participating grade 9 classes to verify that the classes were in courses that count toward completion of the graduation requirements established in subparagraph (A), (B), (C), or (D) of paragraph (1) of subdivision (a) of Education Code Section 51225.3, that the classes were in not more than two courses, and that one of the courses was English.

(d) If any of the classes reported for Morgan-Hart Class Size Reduction Program funds are determined to have been ineligible, prepare a schedule summarizing the results of all procedures and presenting the noncompliant classes by grade level, course title, number of classes, amount of full year equivalent enrollment (FYEE) as defined in Section 15140(e), for grade 9 classes, or number of pupils, for grade 10, 11, and 12 classes, incorrectly reported as eligible, and the amount of Morgan-Hart Class Size Reduction Program funding claimed on the basis of that FYEE or those pupils. Include the data for each ineligible class only once, even if the class was found ineligible in more than one of the steps in the audit procedures. Include the schedule in the Findings and Recommendations section of the audit report.

NOTE: Authority cited: Section 14502.1, Education Code. Reference: Sections 14502.1, 14503, 41020 and 52084, Education Code.

§ 19828.2. Instructional Materials.

For fiscal year 2007-08 and each fiscal year thereafter, perform the following procedures:

(a) Determine whether the year audited is one for which the governing boards of school

districts or county boards of education that receive funds for instructional materials from any state source are subject to the provisions of Education Code Section 60119, as set forth in subdivision (d) of that section.

(b) If the year audited is one in which the school district or county office of education was required to conduct a hearing as provided in Education Code Section 60119, perform the following audit procedures.

(1) For fiscal year 2005-06 and each fiscal year thereafter, determine whether the school district governing board or county board of education, prior to making a determination through a resolution as to the sufficiency of textbooks or other instructional materials, held the public hearing or hearings required by the provisions of Education Code Section 60119 on or before the end of the eighth week from the first day pupils attended school for that year, or, in a school district or county office of education having schools that operate on a multitrack, year-round calendar, on or before the end of the eighth week from the first day pupils attended school for that year on any track that began in August or September.

(2) Determine whether the school district governing board or county board of education provided 10-day notice of the required public hearing or hearings.

(3) Determine whether each notice included the time, place, and purpose of the hearing and whether the school district or county office of education posted the notice at a minimum of three public locations in the school district or county, respectively.

(4) Determine whether the hearing was held at a time that encouraged the attendance of teachers and parents and guardians of pupils who attend the schools in the district and did not take place during or immediately following school hours.

(5) Determine whether the resolution stated that each pupil in each school had sufficient textbooks or instructional materials aligned to the content standards adopted by the State Board of

Education pursuant to Education Code Section 60605 and consistent with the content and cycles of the curriculum framework adopted by the State Board of Education, or instead that there was an insufficiency of such textbooks or instructional materials, or both, in any one or more of mathematics, science, history-social science, and English/language arts including the English language development component of an adopted program, as appropriate. If the resolution stated any insufficiency, verify that the school district governing board or county board of education provided information to classroom teachers and to the public, setting forth, in the resolution, for each school in which an insufficiency existed, the percentage of pupils who lacked sufficient standards-aligned textbooks or instructional materials in each subject area and the reasons that each pupil did not have sufficient standards-aligned textbooks or instructional materials, or both, and took action to ensure that each pupil would have sufficient textbooks or instructional materials, or both, within two months of the beginning of the school year in which the determination was made.

(6) Verify whether the governing board made a written determination as to whether each pupil enrolled in a foreign language or health course had sufficient textbooks or instructional materials that were consistent with the content and cycles of the curriculum frameworks adopted by the State Board of Education for those subjects.

(7) Verify whether the governing board determined the availability of laboratory science equipment as applicable to science laboratory courses offered in grades 9 to 12, inclusive.

(c) If the school district or county office of education was not in compliance with any of the requirements set forth in procedures 1 through 5 of subdivision (b) of this section, the school district or county office of education was not eligible to receive an Instructional Materials Funding Realignment Program allowance for the fiscal year audited. Include a finding in the Findings and Recommendations section of the audit report showing the full amount of

Instructional Materials Funding Realignment Program allowance received as disallowed.

(d) If the school district or county office of education was not in compliance with any of the requirements set forth in procedures 6 or 7 of subparagraph (b) of this section, report the noncompliance in a finding in the Findings and Recommendations section of the audit report.

(e) Instructional Materials Funding Realignment Program:

(1) Determine the amount of the Instructional Materials Funding Realignment Program allowance received by the local education agency.

(2) Verify that the allowance received was accounted for separately.

(3) For kindergarten and grades 1 through 8, review the local education agency's list of instructional materials purchased and select a sample to verify that the materials were adopted by the State Board of Education in March 1999 or later, are in one of the four eligible subject areas, and bear the copyright date and are of editions of the materials adopted by the State Board of Education.

(4) For grades 9 through 12, review the local education agency's list of instructional materials purchased and select a sample to verify that the materials were reviewed and approved through a resolution adopted by the local education agency's governing board as being aligned with State Board of Education-adopted content standards.

(5) Determine whether the governing board certified, as set forth in Education Code Section 60422, that each pupil had been provided with a standards-aligned textbook or basic instructional materials.

(6) If the governing board did certify as set forth in Education Code Section 60422, review the Instructional Materials Funding Realignment Program expenditures initiated after the certification was made and select a sample to verify that the textbooks or materials were from the following categories:

(A) Purchase of instructional materials adopted by the State Board of Education pursuant to the provisions of Education Code Section 60200 for kindergarten and grades 1 through 8, or by the governing board pursuant to the provisions of Education Code Section 60400 for grades 9 through 12.

The following audit procedures apply to the current year appropriations limit calculation for school districts and county offices of education.

(a) Verify that the data used by the district or the county office is accurate, ensuring that the prior year Gann ADA and prior year appropriations limit used by the local education agency match the data on the prior year appropriations limit calculation previously submitted to the California Department of Education. If the district or county office has made adjustments to the prior year data, verify that the adjustments are correct. If the data has been revised, verify that the

district or the county office has recalculated the prior year appropriations limit and attached a copy of the recalculation to the current year appropriations limit.

(a) Determine whether excess sick leave, as that term is defined in subdivision (c) of Education Code Section 22170.5, is expressly authorized or is accrued for the local education agency's employees who are members of the California State Teachers Retirement System (CalSTRS) by performing the following procedures:

(1) Review the employment contracts of the superintendent and one other high-level administrator who is a CalSTRS member, to identify the number of sick leave days each was authorized per school year.

(2) If neither contract authorizes excess sick leave, review the sick leave accrual records of the superintendent and the other high level administrator to determine whether either or both have accrued excess sick leave.

(3) If neither authorized nor accrued excess sick leave is identified in the foregoing steps,

disclose that fact in the Supplementary Information section of the audit report.

(b) If either authorized or accrued excess sick leave is identified in the audit procedures in subdivision (a), review teachers' (non-administrators) collective bargaining agreements to identify any provision authorizing excess sick leave. If no excess sick leave authorization is identified, disclose that fact in the Supplementary Information section of the audit report.

(c) If authorized or accrued excess sick leave is identified in the audit procedures in subdivisions (a) or (b) or both, disclose that fact in the Supplementary Information section of the audit report, identifying each contract or bargaining agreement that authorized excess sick leave, and specifying by title(s) the employee(s) whose sick leave accrual exhibited the granting of excess sick leave.

Determine the amount of the Proposition 20 restricted lottery allowance received from the State Controller.

(a) Verify that the allowance received was accounted for separately.

(b) From the expenditures of the Proposition 20 restricted lottery allowance funds, select a sample and verify that they were for instructional materials as defined in subdivisions (h), (m), or (n) of Education Code Section 60010.

(c) If any expenditure was not for instructional materials, include its amount in a finding in the Findings and Recommendations section of the audit report.

NOTE: Authority cited: Section 14502.1, Education Code. Reference: Sections 14502.1, 14503 and 41020, Education Code.

§ 19836. California School Age Families Education (Cal-SAFE) Program.

If the school district, county office of education, or charter school received Cal-SAFE funds for the audited year, perform the following procedures. Do not apply the materiality provisions set forth in Section 19813.

(a) Determine whether the Cal-SAFE annual report of attendance submitted to the California Department of Education reconciles to supporting documentation by verifying the local education agency's calculation of each reporting line item.

(b) For each line item, select a representative sample of Cal-SAFE pupils whose Average Daily Attendance was included. For each pupil in each sample, verify the Average Daily Attendance calculation, and trace the pupil's daily attendance to the data origination documentation.

(c) Determine whether any Cal-SAFE pupils generated Average Daily Attendance in more than one program. Select a representative sample from among such pupils. Verify that not more than a total of one unit of Average Daily Attendance generated by each pupil was included in the report.

(d) If the total reported units of Average Daily Attendance generated by Cal-SAFE pupils in their education programs include more than one unit of Average Daily Attendance for any pupil, include a statement in the Findings and Recommendations section of the audit report of the number of excess unit(s).

(e) If any inappropriately reported units of Average Daily Attendance are identified through the audit procedures in subdivisions (a) and (b), subtract the inappropriately reported units of Average Daily Attendance from the total reported. From the resulting total, subtract any excess

units of Average Daily Attendance identified through the audit procedures in subdivision (c). Include a statement in the Findings and Recommendations section of the audit report of the correct number of support services allowances and the dollar value of the inappropriately claimed support services allowances.

§ 19837.1. School Accountability Report Card.

For fiscal year 2007-08 and each fiscal year thereafter, perform the following procedures:

(a) Obtain copies of the quarterly report of summarized complaint data compiled pursuant to the provisions of subdivision (d) of Education Code Section 35186. Identify any complaints related to teacher misassignment or vacancies included in the summarized data and compare each such complaint to the information on teacher misassignment or vacancies stated in the School Accountability Report Card for the school identified in the complaint, as required by the provisions of subdivision (b)(5) of Education Code Section 33126. If the information in the School Accountability Report Card is inconsistent with the information in the complaint, interview management to determine the basis of the inconsistency. If the School Accountability Report Card was inaccurate, include a finding in the Findings and Recommendations section of the audit report.

(b) For each school in the sample of schools selected pursuant to Section 19817.1(b), obtain the school district's or county office of education's copy of its most recently completed school facility conditions evaluation instrument developed by the Office of Public School Construction and approved by the State Allocation Board, or a local evaluation instrument that meets the same criteria, pursuant to the provisions of subdivision (d) of Education Code Section 17002. If the evaluation instrument was completed prior to the publication of the school's School

Accountability Report Card, compare the information contained in the evaluation instrument to the information on safety, cleanliness, and adequacy of school facilities contained in the School Accountability Report Card for that school as required by the provisions of subdivision (b)(9) of Education Code Section 33126. If the information in the School Accountability Report Card is inconsistent with the information in the evaluation instrument, interview management to determine the basis of the inconsistency. If the School Accountability Report Card was inaccurate, include a finding in the Findings and Recommendations section of the audit report.

(c) For each school in the sample of schools selected pursuant to Section 19817.1(b), compare the information on the availability of sufficient textbooks and other instructional materials included in the School Accountability Report Card pursuant to the provisions of subdivision (b)(6)(B) of Education Code Section 33126 with the information in the resolution reviewed pursuant to Section 19828.2(b)(5) and the information in the determinations reviewed pursuant to Section 19828.2(b)(6) and Section 19828.2(b)(7). If the information in the School Accountability Report Card is inconsistent with the information in the resolution or the determinations, interview management to determine the basis of the inconsistency. If the School Accountability Report Card was inaccurate, include a finding in the Findings and Recommendations section of the audit report.

§ 19838. Mathematics and Reading Professional Development.

If the school district or county office of education received Mathematics and Reading Professional Development funds, perform the following procedures:

(a)(1) If it is determined, pursuant to provisions of Section 19828.2(b)(5), that standards-aligned textbooks in mathematics or English language arts were not provided for each pupil,

determine whether Mathematics and Reading Professional Development funding was claimed for any of the teachers of those pupils.

(2) For each teacher identified in the foregoing procedure, if any, determine the number of that teacher's pupils who were not provided standards-aligned mathematics or English language arts textbooks and calculate the applicable penalty by multiplying that number of pupils by \$100. Include a statement in the Findings and Recommendations section of the audit report specifying the number of pupils and the penalty amount.

(b)(1) Verify that the number of teachers claimed on the request for reimbursement submitted to the California Department of Education did not exceed the number of teachers actually participating in the Mathematics and Reading Professional Development program.

(2) If it is determined, through the foregoing audit procedure that fewer teachers participated in the Mathematics and Reading Professional Development Program training than were claimed for reimbursement, include a statement in the Findings and Recommendations section of the audit report specifying the number of teachers inappropriately reported for funding and the amount of funding received for those teachers.

(c)(1) Verify that the training provider who conducted the first 40 hours of training was on the State Board of Education-approved list.

(2) If in-house training was provided during the year audited for any portion of the remaining 80 hours of follow-up instruction, verify that the local education agency's in-house professional development met the requirements specified in subdivision (a)(4) of Education Code Section 99237 by being focused primarily on the following:

(A) The mathematics or English language arts content standards adopted by the State Board of Education pursuant to Section 60605.

(B) The curriculum frameworks adopted by the State Board of Education for mathematics and

English language arts.

(C) The use of instructional materials that will be used by pupils and are aligned to the mathematics or English language arts content standards adopted by the State Board of Education pursuant to Section 60605.

(D) Instructional strategies designed to help all pupils gain mastery of the California academic content standards, with special emphasis on English language learners and pupils with exceptional needs.

(3) If it is determined through the foregoing audit procedures that the school district or county office of education used an unapproved contractor or that any in-house training was ineligible, or both, include a finding in the Findings and Recommendations section of the audit report stating the amount inappropriately spent.

Article 3.1. State Compliance Procedures: School Districts and Charter Schools

§ 19845.1. Class Size Reduction.

For fiscal year 2004-05 and each fiscal year thereafter, perform the following audit steps:

If the school district or charter school received Class Size Reduction Program funding for the year audited, perform the following procedures, using daily averaging in all instances in which averaging is required.

(a) Verify the mathematical accuracy of the Class Size Reduction Program claim form submitted to the California Department of Education.

(b) Option One Classes

(1) Select a sample of classes from those that were certified as eligible for Option One Class Size Reduction Program funding, using the following procedures:

(A) The number of classes to be reviewed shall be based on auditor judgment, but the selection of classes shall be made randomly.

(B) For each class selected, the sample shall include at least 15 days randomly selected from all instructional days that occurred between the first day of instruction and April 15, inclusive, of the year audited.

(C) If class size for the sampled classes was more than 20.4 when averaged over a period from the first day of instruction to April 15, inclusive, the auditor shall conduct a more in-depth review. The in-depth review shall be either of the following:

1. A review of all instructional days for all classes for which a district or charter school has requested funding pursuant to the provisions of Education Code Section 52126.

2. A randomly selected sample of all classes and instructional days, of sufficient size and designed in such a manner that the auditor can conclude, with a 95 percent degree of confidence, that the average daily class size for each class, when averaged over the period from the first day of instruction to April 15, did not exceed 20.4.

(D) The district or charter school shall make the determination as to which of the two in-depth review methods set forth in the immediately preceding subparagraph shall be used.

- (2) For sampled classes, review the data used to prepare the list of Option One classes reported to the California Department of Education, to verify that the report is supported by contemporaneous records.

- (3) For sampled classes, review teacher assignments and other available pupil and teacher assignment data to verify that the number of students reported as being under the immediate supervision of each assigned teacher for each class reported was the actual class size for a substantial majority of the full regular school day.

(c) Option Two Classes

(1) Select a sample of classes from those that were certified as eligible for Option Two Class Size Reduction Program funding, using the following procedures:

(A) The number of classes to be reviewed shall be based on auditor judgment, but the selection of classes shall be made randomly.

(B) For each class selected, the sample shall include at least 15 days randomly selected from all instructional days that occurred between the first day of instruction and April 15, inclusive, of the year audited.

(C) If class size for the sampled classes was more than 20.4 when averaged over a period from the first day of instruction to April 15, inclusive, the auditor shall conduct a more in-depth review. The in-depth review shall be either of the following:

1. A review of all instructional days for all classes for which a district or charter school has requested funding pursuant to the provisions of Education Code Section 52126.

2. A randomly selected sample of all classes and instructional days, of sufficient size and designed in such a manner that the auditor can conclude, with a 95 percent degree of confidence, that the average daily class size for each class, when averaged over the period from the first day of instruction to April 15, did not exceed 20.4.

(D) The district or charter school shall make the determination as to which of the two in-depth review methods set forth in the immediately preceding subparagraph shall be used.

(2) For sampled classes, review the data used to prepare the list of Option Two classes reported to the California Department of Education, to verify that the report is supported by contemporaneous records.

(3) For sampled classes, review teacher assignments and other available data to ensure that the class size reported was the maximum actual class size for at least one-half of the instructional minutes offered per day in each grade for which Option Two Class Size Reduction funding was

claimed.

(4) Review class schedules to ensure that the time that pupils spent in Option Two classes was primarily devoted to instruction in reading or mathematics.

(d) Class Size Reduction option for districts or charter schools with only one school serving K-3:

For school districts or charter schools that participate in Class Size Reduction pursuant to the provisions of subdivision (h) of Education Code Section 52122, verify that:

(1) The school had no more than two classes per participating grade level,

(2) The governing board made a public declaration as set forth in subdivision (h)(2) of Education Code Section 52122,

(3) The average class size of all classes participating in Class Size Reduction, combined, did not exceed 20.4, and

(4) The pupil-to-teacher ratio did not exceed 22.4 to 1 in any class.

(e) General requirements:

(1) For all sampled classes, and for classes claimed for Class Size Reduction funding in districts or charter schools with only one school serving kindergarten and grades 1 through 3, review the school level information used to complete the California Department of Education's reporting form. Verify that:

(A) classes claimed for funding were for pupils in kindergarten, or grades 1 to 3, inclusive;

(B) if only one grade level was reduced, it was grade 1;

(C) if two grade levels were reduced, they were grades 1 and 2; and

(D) priority was given to the reduction of classes in grades 1 and 2 before classes in kindergarten or grade 3 were reduced.

(2) For the sampled classes, verify that the district or charter school did not report to the

California Department of Education on the Class Size Reduction reporting form:

(A) any classes consisting of special education pupils enrolled in special day classes on a full-time basis,

(B) any pupil who was enrolled in independent study or home study for the full regular school day,

(C) any pupil who was enrolled in independent study or home study for any portion of the full regular school day, for that portion of each day that the pupil was on independent study or home study, or

(D) any pupil enrolled in a Class Size Reduction combination class who was at a grade level ineligible for Class Size Reduction funding.

(3) For the sampled classes, verify that counts began on the first teaching day each class existed.

(4) If a district elected to reduce class size through the use of an early-late instructional program and claimed Class Size Reduction funding for Option One classes, verify that it did not follow the provisions of Education Code Section 46205 when calculating instructional time used to qualify for Longer Instructional Day and Year incentive funding unless the district operated an early-late instructional program pursuant to the provisions of Education Code Section 46205 prior to July 1, 1996.

(5) If a district elected to reduce class size through the use of an early-late instructional program and claimed Class Size Reduction funding for Option Two classes, verify that it did not follow the provisions of Education Code Section 46205 when calculating instructional time used to qualify for Longer Instructional Day and Year incentive funding.

(f) If any of the classes reported for Class Size Reduction funding is found to be ineligible for such funding pursuant to any of the foregoing audit procedures, or if any individual pupils in

eligible classes are found to have been ineligible because of their grade level(s) but to have been included in the number of eligible pupils reported, or both, prepare, and include in the Findings and Recommendations section of the audit report, a schedule summarizing the results of all procedures and displaying the numbers of noncompliant classes by grade level, number of pupils incorrectly reported as eligible, and Class Size Reduction funding claimed on the basis of those classes and pupils. Include the data for each ineligible class only once, even if found to have been ineligible for Class Size Reduction funding in more than one of the steps in the audit procedures. Display information separately for classes with annual average enrollments determined, pursuant to the provisions of Education Code Section 52124.5, to be

(1) equal to or greater than 20.5 but less than 21.0, with a 20 percent reduction of the amount to which the district would otherwise be eligible for each such class;

(2) equal to or greater than 21.0 but less than 21.5, with a 40 percent reduction of the amount to which the district would otherwise be eligible for each such class;

(3) equal to or greater than 21.5 but less than 21.9, with an 80 percent reduction of the amount to which the district would otherwise be eligible for each such class; and

(4) equal to or greater than 21.9, with a 100 percent reduction of the amount to which the district would otherwise be eligible for each such class.

(g) Interview management regarding the district's staff development program.

(1) Verify that the staff development program required, as set forth in Education Code Section 52127, that any certificated teacher providing direct instruction to a class in the Class Size Reduction Program receive the appropriate training necessary to maximize the educational advantages of Class Size Reduction, including but not limited to methods for providing individualized instruction; effective teaching, including classroom management, in smaller classes; identifying and responding to student needs; and opportunities to build on the individual

strengths of students.

(2) If the district did not have a staff development program as set forth in Education Code Section 52127, include a finding in the Findings and Recommendations section of the audit report showing the full amount of Class Size Reduction funding received as disallowed.

§ 19846. After School Education and Safety Program.

If the local education agency received After School Education and Safety funds, perform the following procedures:

(a) If the local education agency operated an after school program component:

(1) Determine whether the local education agency established a policy regarding reasonable early daily release of pupils from the program.

(2) Select a quarter for which attendance was reported for the after school base grant, and select a representative sample of schools for each program type, as that term is used in the report, for which data was reported in that quarter. Determine whether the reported number of students served, as that term is used in the report, for each selected school is supported by written records that document pupil participation, by tracing the reported numbers through any documentation used to summarize the numbers of students served, to written data origination documentation.

(3) For each school selected pursuant to subparagraph (a)(2) of this section, determine whether the after school program commenced every day immediately upon the conclusion of the regular schoolday, operated a minimum of 15 hours per week, and operated until at least 6:00 p.m. every regular schoolday, by reviewing, for example, local policies and procedures, program staffing schedules, sign in/out sheets, program brochures, and other relevant documentation.

(4) For each school selected pursuant to subparagraph (a)(2) of this section, determine

whether elementary school pupils participated in the full day of the after school program on every day during which pupils participated, and determine whether pupils in middle or junior high schools attended the after school program a minimum of nine hours a week and three days a week, except as consistent with the established early release policy.

(5) If any noncompliance is found through the foregoing procedures, include a statement in the Findings and Recommendations section of the audit report, stating that the local education agency did not have a policy on reasonable early daily release from the after school program, if that is the case, and including discrepancies, if any, between the reported numbers of students served and the totals arising from the supporting documentation; failure to operate consistent with the days/hours requirements set forth in subdivision (a)(3), if any; and the portion of reported students served that resulted from attendance, inconsistent with the established early release policy, by elementary school pupils for less than the full day of the after school program, and from attendance by middle or junior high school pupils for less than nine hours a week or fewer than three days a week, if any.

(b) If the local education agency operated a before school program component:

(1) Determine whether the local education agency established a policy regarding reasonable late daily arrival of pupils to the program.

(2) Select a quarter for which attendance was reported for the before school base grant, and select a representative sample of schools for each program type, as that term is used in the report, for which data was reported in that quarter. Determine whether the reported number of students served, as that term is used in the report, for each selected school is supported by written records that document pupil participation, by tracing the reported numbers through any documentation used to summarize the numbers of students served, to written data origination documentation.

(3) For each school selected pursuant to subparagraph (b)(2) of this section,

(A) Determine whether the local education agency operated the before school program for not less than one and one-half hours per regular schoolday, by reviewing, for example, local policies and procedures, program staffing schedules, sign in/out sheets, program brochures, and other relevant documentation.

(B) Determine whether attendance by pupils for less than one-half of the daily program hours was included in the report of students served.

(4) For each school selected pursuant to subparagraph (b)(2) of this section, determine whether elementary school pupils participated in the full day of the before school program on every day during which pupils participated, and determine whether pupils in middle or junior high schools attended the before school program a minimum of six hours a week and three days a week, except as consistent with the late arrival policy.

(5) If any noncompliance is identified through the foregoing procedures, include a statement in the Findings and Recommendations section of the audit report, stating that the local education agency did not have a policy on reasonable late daily arrival of pupils to the before school program, if that is the case, and including discrepancies, if any, between the reported numbers of students served and the totals arising from the supporting documentation; failure to operate for the required hours each schoolday as set forth in subparagraph (b)(3)(A) of this section, if any; and the portion of reported students served that resulted from attendance, inconsistent with the established late arrival policy, by elementary school pupils for less than the full day of the before school program, and by middle or junior high school pupils for less than six hours a week or fewer than three days a week, if any.

(c) General requirements:

(1) Verify that the local education agency contributed cash or in-kind local funds, equal to not less than one-third of the total state grant, which may have originated from the school district,

other governmental agencies, community organizations, or the private sector. Facilities or space usage may fulfill not more than 25 percent of the required local contribution.

(2) Review program expenditures by performing the following procedures:

(A) Verify that expenditures of state funds for indirect costs were the lesser of the local education agency's indirect cost rate as approved by the California Department of Education for the year audited, or 5 percent of the state funding received.

(B) Verify that not more than 15 percent of the state funding was expended for administrative costs, including indirect costs charged to the program.

(C) Verify that not less than 85 percent of the state funding was allocated to schoolsites for direct services to pupils.

(3) If the local education agency did not meet the minimum cash or in-kind local contribution requirement, spent state program funding on excess indirect costs or on excess administrative costs, provided an insufficient allocation to schoolsites, or any combination of the foregoing, include a finding in the Findings and Recommendations section of the audit report stating, correspondingly, the amount of the local match requirement, the amount by which the local education agency failed to meet the match requirement, the excess amount of the local match requirement fulfilled through facilities or space usage, the amount(s) inappropriately spent, and the amount of the insufficiency in schoolsite allocations.

Article 4. State Compliance Procedures: Charter Schools

§ 19850. Contemporaneous Records of Attendance.

(a) Determine whether the Second Principal report of attendance submitted to the California Department of Education is supported by written contemporaneous records that document all

pupil attendance included in the charter school's Average Daily Attendance calculations, by tracing the Average Daily Attendance numbers from the Second Principal report of attendance through any documentation used by the charter school to summarize attendance, to written contemporaneous data origination documents.

(b) If any inappropriately reported units of Average Daily Attendance are identified through the foregoing audit procedure, recalculate, consistent with the provisions of Education Code Section 46303, the correct number of units of Average Daily Attendance. Include a statement in the Findings and Recommendations section of the audit report of the number of units of Average Daily Attendance that were inappropriately reported for apportionment and an estimate of their dollar value.

NOTE: Authority cited: Section 14502.1, Education Code. Reference: Sections 14502.1, 14503, 41020, 47612.5 and 47634.2, Education Code.

§ 19851. Mode of Instruction.

(a) If Average Daily Attendance was reported to the California Department of Education by the charter school as generated through classroom-based instruction, determine whether that attendance was generated in compliance with all of the following conditions:

(1) The charter school's pupils were engaged in educational activities required of those pupils, and the pupils were under the immediate supervision and control of an employee of the charter school who possessed a valid teaching certification in accordance with the provisions of subdivision (l) of Education Code Section 47605.

(2) At least 80 percent of the instructional time offered at the charter school was at the schoolsite. The requirement to be "at the schoolsite" is satisfied if either of the conditions set forth in subdivision (b) of Section 11963 is met.

(3) The charter school's schoolsite was a facility that was used principally for classroom

instruction as that term is defined in subdivision (b)(1) of Section 11963.

(4) The charter school required its pupils to be in attendance at the schoolsite at least 80 percent of the minimum instructional time required pursuant to the provisions of subdivision (a)(1) of Education Code Section 47612.5.

(b) If any Average Daily Attendance reported to the California Department of Education as classroom-based instruction was not generated in compliance with all of the preceding conditions, it is not eligible for apportionments unless it was generated in full compliance with the requirements set forth in Section 19852. If it was not generated in full compliance with the requirements set forth in Section 19852, include a statement in the Findings and Recommendations section of the audit report of the number of units of Average Daily Attendance that were inappropriately reported for apportionment and an estimate of their dollar value.

NOTE: Authority cited: Section 14502.1, Education Code. Reference: Sections 14502.1, 14503, 41020, 47612.5 and 47634.2, Education Code.

§ 19852. Nonclassroom-Based Instruction/Independent Study.

If Average Daily Attendance was reported by the charter school to the California Department of Education as generated through nonclassroom-based instruction (independent study), or was reported as generated through classroom-based instruction but was not generated in compliance with all of the conditions set forth in subdivision (a) of Section 19851, perform the following procedures:

(a) Determine whether the governing body of the charter school had adopted written policies for independent study as required by the provisions of Education Code Section 51747. If it had not, any reported Average Daily Attendance generated through independent study is not eligible for apportionment. If the required policies were in place, determine whether any reported Average Daily Attendance was generated before the written policies were adopted. Any reported

Average Daily Attendance generated through independent study before the written policies were adopted is not eligible for apportionment.

(b) Verify the charter school's calculation, made pursuant to Section 11704, of ineligible Average Daily Attendance, if any, generated through full-time independent study.

(c) Verify that the documentation used by the charter school to summarize monthly attendance provides accurate information. If the charter school had multiple sites through which it provided independent study, select a sample of school sites that is representative of the charter school's grade spans (elementary, middle, and high schools) and sufficient in size to allow the auditor to draw a reasonable conclusion with respect to the charter school's compliance with independent study requirements. Perform the following procedures:

(1) Determine the total number of days of attendance reported for each sampled site that resulted from attendance by pupils while engaged in independent study. Reconcile the monthly totals (days of apportionment attendance) on the site's attendance summary to the summary maintained by the charter school for the Second Principal attendance report.

(2) Select a test month in the Second Principal attendance reporting period. Verify the mathematical accuracy of the monthly report, or its equivalent if no monthly report is prepared, and trace totals to the site's attendance summary.

(3) Verify that a certificated employee of the charter school, as defined by Section 11700.1, coordinated, evaluated, and provided general supervision, as that term is defined in Section 11700(b), of each pupil's independent study, as required by the provisions of subdivision (a) of Education Code Section 51747.5.

(4) Select a representative sample of teachers. Verify the mathematical accuracy of the teachers' attendance records of pupil attendance. Trace the monthly totals from the monthly report to the attendance records.

(d) From the attendance records, select a representative sample of pupils for whom Average Daily Attendance generated through independent study was claimed, including pupils on intermittent (“short term”) independent study, if the charter school offered that option, and perform the following procedures:

(1) Determine each pupil’s county of residence at the time of commencing independent study and verify that it is the county in which the apportionment claim is reported or a contiguous county within California.

(2) Determine whether mailing addresses or other evidence of residency changed during the time the pupils were in independent study and, if so, whether each pupil remained a resident of the same or a contiguous county within California.

(3) Verify that, on each day for which a pupil’s attendance was reported, the pupil engaged in an educational activity or activities required of him or her by the charter school.

(4) Verify that each day of each pupil’s attendance included in calculations of Average Daily Attendance took place on one of the charter school’s schooldays.

(5) Verify that a total of not more than one day of attendance was recorded for each pupil for any calendar day on which school was in session.

(6) Verify that a written agreement exists for each pupil.

(7) Verify that every written agreement contained all the elements required by the provisions of Education Code Section 51747(c):

(A) The manner, time, frequency, and place for submitting a pupil’s assignments and for reporting his or her progress.

(B) The objectives and methods of study (pupil activities selected by the supervising teacher as the means to reach the educational objectives set forth in the written agreement) for the pupil’s work.

(C) The methods utilized to evaluate that work (any specified procedure through which a certificated teacher personally assesses the extent to which achievement of the pupils meets the objectives set forth in the written assignment).

(D) The specific resources, including materials and personnel, to be made available to the pupils (resources reasonably necessary to the achievement of the objectives in the written agreement, not to exclude resources normally available to all pupils on the same terms as the terms on which they are normally available to all pupils).

(E) A statement of the policies adopted pursuant to the provisions of subdivisions (a) and (b) of Education Code Section 51747 regarding the maximum length of time allowed between the assignment and the completion of a pupil's assigned work, and the number of assignments a pupil may miss before there must be an evaluation of whether it is in the pupil's best interests to continue in independent study.

(F) The duration of the independent study agreement, including the beginning and ending dates for the pupil's participation in independent study under the agreement, with no agreement being for a period longer than one semester, or one-half year for a school on a year-round calendar.

(G) A statement of the number of course credits or, for the elementary grades, other measures of academic accomplishment appropriate to the agreement, to be earned by the pupil upon completion.

(H) A statement in each independent study agreement that independent study is an optional educational alternative in which no pupil may be required to participate.

(I) Signatures, affixed prior to the commencement of independent study, by

1. the pupil;

2. the pupil's parent, legal guardian, or caregiver as that term is used in Family Code Section

6550 and following, if the pupil was less than 18 years of age;

3. the certificated employee who was designated as having responsibility for the general supervision of the pupil's independent study; and

4. all other persons, if any, who had direct responsibility for providing assistance to the pupil.

(8) Verify that no days of attendance were reported for dates prior to the signing of the agreement by all parties.

(9) Verify that evaluated pupil work samples, bearing signed or initialed and dated notations by the supervising teacher indicating that he or she personally evaluated the work, or that he or she personally reviewed the evaluations made by another certificated teacher, have been retained in the file.

(e) If any inappropriately reported units of Average Daily Attendance are identified through the foregoing audit procedures, recalculate, consistent with the provisions of Education Code Section 46303, the correct number of units of Average Daily Attendance. Include a statement in the Findings and Recommendations section of the audit report of the number of units of Average Daily Attendance that were inappropriately reported for apportionment and an estimate of their dollar value.

NOTE: Authority cited: Section 14502.1, Education Code. Reference: Sections 14502.1, 14503, 41020, 47612.5 and 47634.2.

§ 19853. Determination of Funding for Nonclassroom-Based Instruction.

If more than 20 percent of the charter school's total Average Daily Attendance was generated through nonclassroom-based instruction (independent study) as set forth in Section 19852, perform the following procedures:

(a) Determine whether the charter school has

(1) a multi-year funding determination, made pursuant to the provisions of subdivision (d) of

Education Code Section 47612.5 and of Section 47634.2, that applies to the year being audited and that was granted in a year prior to the year being audited, or

(2) a funding determination otherwise applicable to the year audited.

(b) If the charter school does not have either type of funding determination specified in subdivision (a) of this section, the charter school was not eligible for funding for any Average Daily Attendance generated through nonclassroom-based instruction. Include a statement in the Findings and Recommendations section of the audit report of the number of units of Average Daily Attendance that were inappropriately reported for apportionment and an estimate of their dollar value.

(c) If the charter school has a funding determination as specified in subdivision (a)(2) of this section, and the charter school was in operation in the fiscal year prior to the year being audited, verify the accuracy of the following data submitted by the charter school to the California Department of Education on the nonclassroom-based funding determination form applicable to the year being audited:

(1) The charter school's federal revenues, including start-up, implementation, and dissemination grant(s); state revenues; local revenues, including in lieu of property taxes; and other financing sources.

(2) The charter school's total expenditures for instruction and related services.

(3) The charter school's total expenditures for salaries and benefits for all certificated employees as defined in subdivision (c)(1) of Section 11963.3.

(4) The charter school's pupil-teacher ratio calculated pursuant to Section 11704, and, if submitted, the pupil-teacher ratio of the largest unified school district in the county or counties in which the charter school operates.

(5) The listing of entities that received, in the previous fiscal year, \$50,000 or more or ten (10)

percent or more of the charter school's total expenditures identified pursuant to subparagraphs (B), (C), (D), and (E) of subdivision (a)(5) of Section 11963.3; the amount received by each entity; whether each of any such contract payments was based upon specific services rendered or upon an amount per unit of Average Daily Attendance or some other percentage; and an identification of which entities, if any, had contracts that included provision for payments based on a per unit of Average Daily Attendance amount or some other percentage.

(d) If any inaccurate data is identified through the immediately foregoing audit procedures, prepare a schedule displaying the inaccurate data and the corresponding correct data. Include the schedule in the Findings and Recommendations section of the audit report.

(e) If a funding determination applicable to the year audited was made for the charter school by the State Board of Education, pursuant to the provisions of Education Code Section 47634.2, confirm that the governing board of the charter school has adopted and implemented conflict of interest policies as required by subdivision (b)(1)(C) of Section 11963.3. If the governing board of the charter school has not adopted, or has adopted but has not implemented, conflict of interest policies as required, include a statement in the Findings and Recommendations section of the audit report that states the policies were not adopted, if that is the case; or that the policies were not implemented, if that is the case, and describes the relevant facts.

NOTE: Authority cited: Section 14502.1, Education Code. Reference: Sections 14502.1, 14503, 41020 and 47634.2, Education Code.

§ 19854. Annual Instructional Minutes – Classroom Based.

(a) Review the charter school's attendance calendar and bell (class) schedules or other available comparable documentation. If the charter school has multiple sites, select a sample of school sites that is representative of the charter school's grade spans (elementary, middle, and high schools).

(b) For each sampled site, compare the amount of instructional minutes offered for each grade level during the year being audited to the amount of instructional minutes required pursuant to the provisions of subdivision (a)(1) of Education Code Section 47612.5 as set forth below:

Kindergarten	36,000 minutes
Grades 1 through 3	50,400 minutes
Grades 4 through 8	54,000 minutes
Grades 9 through 12	64,800 minutes

(c) Determine whether the charter school offered optional classes to satisfy instructional minutes requirements. If enrollment in optional classes was low, review the charter school's documentation of class offerings to ensure that the charter school acted effectively to comply with the law. Practices that are not consistent with effectively offering instructional time may include, but are not limited to, offering only a small number of courses that in addition are appropriate only for limited numbers of pupils, and courses scheduled such that pupils may take them only by giving up their lunch period.

(d) Prepare the "Schedule of Instructional Time" that must be presented in the Supplementary Information section of the audit report, showing by grade span the minimum instructional minutes requirements specified in subdivision (a)(3) of Education Code Section 46201, the instructional minutes offered during the year being audited showing the sampled site with the lowest number of minutes offered at each grade span; and whether the charter school complied with the instructional minutes provisions.

(e) If the charter school did not offer the required number(s) of instructional minutes, prepare a separate schedule for each site, showing only the grade level(s) that were not in compliance, and calculate a proportional reduction in apportionment consistent with the provisions of subdivision (c) of Education Code Section 47612.5. Include both the schedule(s) and the calculated reduction in apportionment, in a finding in the Findings and Recommendations section of the audit report.

Federal Compliance Requirements

Office of Management and Budget Circular A-133 (revised June 2003), titled *Audits of States, Local Governments, and Non-Profit Organizations*, was issued pursuant to the Single Audit Act of 1984 (Public Law 98-502) and the Single Audit Act Amendments of 1996 (P.L. 104-156). It sets forth standards intended to bring about consistency and uniformity in the auditing of entities expending federally granted funds, and is available through this website:

<http://www.whitehouse.gov/omb/circulars/index-slg.html>

The compliance requirements for testing federal program expenditures are set forth in the OMB Circular A-133 Compliance Supplement. The 2007 Compliance Supplement is effective for audits of fiscal years beginning after June 30, 2006, and supersedes the OMB Circular A-133 Compliance Supplement issued in March 2006. The 2007 Supplement is available at the following website:

http://www.whitehouse.gov/omb/circulars/a133_compliance/07/07toc.html

The Compliance Supplement sets forth program requirements accompanied by suggested audit procedures for testing compliance. The State Controller's Office advises that these procedures are not the only ones that can be utilized by the auditor, nor are they mandatory procedures. Auditors should apply professional judgment to choose procedures and determine the extent of tests performed, and the audit procedures should be tailored to individual programs and circumstances. The auditor is also responsible for ensuring that specific requirements that are modified by a change in a law or regulation are included in the audit procedures.

The Compliance Supplement may not include all the federal programs and procedures required to be audited for compliance; therefore, independent auditors may have to contact funding agencies for compliance requirements and applicable procedures. Program regulations and guidelines are also referenced in the Catalog of Federal Domestic Assistance (CFDA), which can be accessed online through this website:

<http://www.cfda.gov>

The California Department of Education provides a listing of the federal programs under which local education agencies generally receive awards, along with the corresponding CFDA numbers, on the following web page:

The Federal Audit Clearinghouse, which operates on behalf of OMB, provides links to the required forms for submission of federally-required audit reports and other information at its home page:
